The enclosure to this [REDACTED] is the second August 1952 issue (No. 16/1952) of the semi-monthly periodical Deutsche Finanzwirtschaft (German Financial Affairs), published by "Die Wirtschaft", a publishing house, in Berlin.

Following are some examples of topics discussed in this publication:

"The new accounting system improves planning and control"

"The plant manager is also responsible for the financial affairs of his enterprise"

Helf Wetzel: "All efforts of the people-owned insurance institutions for the building of socialism"

Finances of the people-owned economy

State budget

Karl-Heinz Weber and Klaus-Dieter Freitag: "Why is it that the state budget plan did not become law until 19 June 1952?"

Taxes

Werner Kreische: "Is it justified to continue the practice of permitting tax-exempt lump sums for increased advertising and special expenses?"

Banks

Friedrich Grunberg and Oskar Lehmann: "The agricultural credit system of the GDR and the role of the Deutsche Bauernbank (German Farmers' Bank)"

Letters to the editor

Return to CIA Library

Regulations No. 175 and 176 of the revenue administration

Special information for chief bookkeepers and for the control and auditing organs of the people-owned economy, No. 10

Special information on the state budget, No. 7

Special information on money and loans, No. 5

Tax information, No. 13

This document also includes an information sheet, dated 15 August 1952, on standardized bookkeeping procedures.
